## - RETREAT -

Seventy-four students and eight faculty members were present at the annual Retreat at Lake Burton Sept. 15-18. The group departed from Milledgeville in buses Sunday morning.

Opening the program of Retreat, Frances Lott, CGA president, gave the purpose of Retreat and CGA, and was followed by Etta Carson and Josephine Bone, each of whom gave the purpose of the organization which she heads.

Monday morning, Josephine Bone gave a general evaluation of campus needs. In the open discussion that followed, it was decided to make an effort through the four classes for more school spirit and competition.

The responsibilities of student officers was the topic discussed Tuesday by Etta Carson. Afterward, reports were given of the three major organizations, CGA, Rec., and YWCA.

Between the meetings the group was entertained with swimming, fishing, boating, mountain climbing, and a barn dance.

Organizations represented were Sophomore Commission, Y Cabinet, Upper Court, Student Council, Freshmen Sponsors, and general Rec Board. Located in the Physical Education and Health building, the new Cafeteria and Dining Room has been completely finished and decorated during the summer. Two small dining rooms, under the same management, have been made available for private parties.

The serving hours, as announced by Miss Maxine Seabaugh, manager, are as follows:

was officially begun Thursday night, when all new students met with their faculty advisors and student counselors. This meeting was followed by a student get-together in Russell Auditorium. The entertainment of stunts and songs was planned by those girls attending Retreat.

Climaxing the evening, the gym was the scene of a game party given by the YWCA.

Friday morning the new students met in the Russell Auditorium, at which time welcoming addresses were made by President Guy H. Wells, Dean Hoy Taylor, Dean Ethel Adams, Miss Cynthia Mallory, and Miss Maggie Jenkins. Guest speaker for the occasion was Mrs. C. B. McCullar.

At 11:30 a. m. the constitution study groups met to begin the series of lectures which preceeds the CGA Constitution test.

Placement tests were started Friday afternoon when all new students were given a psychology test. Following the test, a tour of the campus was made by the freshmen.

The Recreation Association sponsored informal dancing on the gymnasium roof garden Friday night. At the same time, the transfer students were entertained by the Senior Class at an open house in Ennis Hall.

Today three placement tests were given, these being English and literary and appreciation, French, and secretarial. In Parks Memorial Hospital, the physical examinations for transfers took place.

Social events of the day were a bridge party for transfer students in Ennis Hall this afternoon and a program of sports on the back campus for all new students.

Tonight, the college will be host at a complimentary movie in Russell Auditorium.

Scheduled for tomorrow are morning and evening services in the auditorium, at which times, Rev. John Hines, rector of St. Paul's Episcopal church in Augusta, will (Continued on page five)

## Frosh Seek Special Work - -That's Why They're Here

By Pauline Kraft

As the new students came pouring in Thursday morning and afternoon, I wandered around the main campus, stopping every other girl, and always asked the same question. I was frankly curious. Why would a girl pick GSCW as her school? And, boy! did I find out.

"Because I wanted to take a course that I could get at no other school," was the answer I heard most frequently. Going further, I learned that the special courses referred to were in the fields of music, home economics, and educa-

According to what I was told, family and friends come near making the decision as to college for a girl. The fact that parents and

relatives graduated here, the fact that friends had come here, and because parents wanted their daughter near home were three outstanding reasons.

One student questioned, explained that she wanted to attend a college out of her home state and so she came to Georgia. Another was more frank than the majority and stated that her two reasons

#### YOU CAN LIKE THIS SCHOOL IF YOU WANT TO

We don't like to be redundant, but we have a point that we would like to make clear to the new students, and so, we repeat here what everybody else has said. That is--we welcome all the new students, whether they be frshmen or transfers.

We sincerely are glad that you chose to attend GSCW this year. We believe that you will like it well enough to come back for more when the year ends.

There is a lot to liking a school. Most important factor is your own attitude. If you came here determined that you wouldn't like your housemother, your dormitory, your roommates, your academic work and all other things connected with the school---well, you won't. You will be as homesick as you thought you would be and even more miserable.

So, in this welcome, we give a bit of advice. Look around you. There are a lot of cute girls to run around with. Some of our professors are worth knowing, and your housemother is not as mean as you might think she is.

If you aren't satisfied with things now, do your best to change the situation. If that doesn't help matters, then make up your mind to accept the life that has been handed you. After all, you are an adult now, which means that you should be able to give forth at least a weak grin even though the world seems against you.

#### THE EDITOR COMMENTS ON THE FRESHMAN CLASS

Well, the freshmen are here, in case nobody knows it. They look like a nice class, too. We are glad that they are nere, if for no other reason than that we like to see new people on the campus. If the same group of students stayed here year after year, we think things might be slightly dull. That is one blessing of our educational system and we like

### ON SCHOLASTIC STANDARDS

We have high hopes for the scholastic standards this year. We believe that we will see a rise in the number of Dean's List students. After all, with all the boys going to military training camps, there should be more girls with more time in which to study.

#### ON BRITAIN'S WAR

All the Cassandras in the field of politics and war climbed out on a limb during the summer and it wasn't a very substantial roost. Britain is still here, and according to news reports, still kicking lustily. For that we are thankful. Not only did we wish the English to be safe, but we still prefer for them to do our fighting.

Of course, we can't state positively that Great Britain has won this war, but we do believe that her resistance so far indicates success eventually. And we think that the United States should give all the aid possible and practical toward that eventuality. For that reason, we think that Franklin Roosevelt is the logical person to be elected President of our country.

We aren't old enough to vote now and we would like to cast a ballot in favor of Mr. Roosevelt. Our consolation is that maybe he will still be running for office when we do reach the age of twenty-one.

### ON THIS EDITION OF THE COLONNADE

This is our way of welcoming all the new students to GSCW. We decided during the summer that if the other organizations on the campus were doing special work during Orientation Week, the Colonnade should certainly have a part in it.

This is our effort. If it is disappointing, please don't censure us. We (and that 'we' is not editorial, it includes the business manager) have done our best. And we promise that, from now on, when the staff arrives and we all start work on the paper, it will be a better job.

Anyway, you are welcome as far as we are concerned.

## Plans Made For Concert Drive

To map plans for the coming season's membership drive, to be conducted Oct. 7-12, the Milledgeville Cooperative Concert Association, headed by Dr. Dawson Allen, met Thursday at 4:30 p. m. in the Music Building of Georgia State College for Women.

Over 100 members were added to the association's roll last year, Dr. Allen pointed out to the concert group as he asked for cooperation in an effort to surpass last season's record "in order that we may have as good or better artists than we had last year."

Reviewing the work of the organization's 1939-40 season. Dr. Allen said the association "finished the year with a feeling of satisfaction and success, both as to talent and membership.

"Because of the increased standards of appreciation," he continued, "and the cultural values received from such a program, the association has become a necessary asset to our community."

### COLLEGIATE WORLD

By Associated Collegiate Press

A fairly comprehensive picture of the average sorority girl on the Washington University campus at St. Louis is contained in a survey in Student Life, campus publica-

Some of the conclusions follow: "She comes in assorted heights, dressed and shaped according to latest fashion. Her well-curled hair is becoming, and she will seldom cover it with a hat; but just let a suspicion of rain appear and she wads it up under a bandana and looks like someone who should be slaving in Russian wheat fields.

"In spite of her 12-hour study

average weekly she keeps her grades well above the campus level, makes more B's than C's, and inspires all kinds of tales of apple-polishing by the less successful male.

"She thinks about men almost as much as they like to think she does, but her thoughts are not always to their credit. Rather often she has more dates than she wants. because that's the only way she can be sure to have the ones she really does want.

"Two or three nights a week she has a more or less formal askedfor-in-advance, definite-destination date. In between times she may lunch or go for rides or have boys drop in. Certainly she spends hours on end "jellying," which she may or may not consider a great waste of time. (Jellying—A campus term meaning an inexpensive date, usually several hours sitting in a restaurant over a soda or dish of ice cream.)

"She has an allowance and usually buys her own lunch at the school cafeteria or an off-campus restaurant.

"She may look frivilous, but there's a fifty-fifty chance she has held down a paying job at some time or other. She may even be the one girl in a hundred who's working her way through college with a full-time job. She's more apt to be the one sorority girl in 10 who earns her spending money by working about seven hours a week.

"In general she's a happy girl, fairly well satisfied with her share of life."

And there's the one about the girl who was so cynical she didn't believe that storks brought baby

It used to be that the first man out of a dormitory was the best dressed—now he's the only one dressed.

"May I come in? It's the room I had when I went to college in '90." he said.

"Yes, sir," he said, lost in reverie, "Same old room."

He opened the door. There stood a girl, terrified.

"This is my sister," I said. "Yes, sir. Same old story!"

Prof.: How would you punctuate this sentence: "The wind blew a ten-dollar bill around the corner?"

Student: "I would make a dash after the bill."

Dumb: "Well, how are you, anyway?" Dora: "A little petter, thanks."
